LING 510: FOUNDATIONAL CONCEPTS IN LINGUISTICS

WEDNESDAYS 4:00-7:00PM

In this course, you'll learn fundamental principles from the study of linguistics. These linguistic tools reveal the hidden rules of human language and can be applied to any language in the world. There will be a lots of hands-on practice as you learn to analyze the systematic rules that exist at every level of language structure, including phonological, morphological, syntactic, semantic, and pragmatic patterns.
